## BRIEF ABSTRACT OF LETTER.

Submit an application of 18.7.08 from  
 Mr. N. Krishna Kumar of Oorahalli praying for  
 a grant of Rs 2000 for the purchase of  
 a sugar evaporating plant.

## NOTES AND ORDERS.

The Applicant Mr. Krishna Kumar has been  
 granted a loan of Rs 2000 which he has been  
 permitted to utilize for the purchase of an  
 evaporating plant. (Vide G.O. no. R 4030-1-14/44-02  
 of 4.1.08). He has now ascertained that

Serial  
No.

the cost of the complete machinery for the Soap-making plant comes up to Rs 9105. he requests that he may be granted a further loan of Rs 2000. for the purpose.

The Rev Comm recommends the grant of the loan asked for, free of interest as a special case, on the security of the machinery already set up in the estate & the plant proposed to be set up now & to be repaid in 10 equal annual instalments.

The proposed loan, if granted, together with the previous one of Rs 2000 already granted for the same purpose, will amount to Rs 9000.

But according to rules the total amount that could be granted for the purchase of sugar machinery is only Rs 5000.

Hence the amount that may be granted now is only Rs 3000.

- 2 To Mr. Rev. Commr & Comptroller  
No R 894 of 8/8/08

States that Govt. have no objection  
to the grant to Mr. N. Krishna Durgar  
of a further loan of Rs 3000 for  
the purchase of sugar machinery  
(as the maximum amount grantable  
under the rules is only Rs 5000) on  
his furnishing proper landed security.  
The loan being repaid in 10 annual  
instalments.

No.

Office of the Rev. Comr. in Mysore,  
Bangalore. Dated 25th July 1908

From

A. RANGASWAMI IYENGAR Esq., B. A., B. L.  
Revenue Commissioner in Mysore.

To

The Secretary to the Government of His Highness  
the Maharaja of Mysore,  
General and Revenue Department.s

Sir,

I have the honor to submit herewith for the orders of Government an application from Mr: N. Krishna Iyengar of Oorgahalli, Closepet Sub Taluk, praying for a loan of Rs. 7000/- for the purchase of an evaporating plant which he proposes to set up in his estate and to state as follows:-

2. Government in their Order No. R. 4030-1/Agri. 44-07-2 dated 4th January 1908 were pleased to permit Mr: Krishna Iyengar to utilize the loans amounting to Rs. 2000/- sanctioned in Government Order No. 954-7/Agri. 28-05-5 dated 20th July 1906 for procuring an evaporating plant and also the loan of a boiler available at Mysore and in charge of the Executive Engineer should the same suit him.
3. Mr: Krishna Iyengar has now in his application stated that the boiler referred to above does not suit his purpose and that he had therefore to change his plans and defer ordering for the evaporating machinery till he was in possession of more information regarding a complete set of machinery for evaporating the juice and converting it into sugar. He has now submitted with his application a specification and estimate of sugar making machinery furnished by Messrs. A.W. Smith & Co of Glasgow.
4. I have discussed the matter personally with Mr: Krishna Iyengar and I understand that he has already procured a crushing mill and an oil engine and has set them up on his estate. The crushing mill is the one manufactured by Messrs. A.W. Smith & Co.

Enclosure No. . . .

Forwards an appli-  
-cation from Mr. N.  
Krishnaiah of  
Gorakhalli, Closepet  
Sub. Taluk, praying  
for a loan of Rs. 7000/-  
for the purchase of an  
evaporating plant  
to be set up in his estate  
and strongly recom-  
-mends the grant of the  
loan free of interest.

B & I  
 Rep. of  
 W. A. Rogers  
 W. A. Rogers  
 2977

<sup>of</sup> Co. Glasgow, the same firm as has now furnished the specification and estimate. The mill has 3 horizontal rolls each 18" long and 1 ft. in diameter and is driven by a Hornsby Ark<sup>o</sup>rd Oil engine of 6½ H.P.. The mill costs 1500/- R.F.O.B. Madras and the charges incurred in landing, conveying by railway, and setting up, amount-  
ed to Rs 200. The Engine cost 1600/- and the other charges roughly amounted to Rs 150.

5. Mr. Krishna Iyengar now proposes to add to his exist-  
ing machinery by setting up on his estate an evaporating plant  
which will consist of -

|                                             |       |
|---------------------------------------------|-------|
| One multitubular boiler with fittings----   | £ 173 |
| Two clarifiers-----                         | £ 119 |
| One juice pump and tank -----               | £ 25  |
| One evaporating pan -----                   | £ 83  |
| One evaporating pan of the Wetzel type----- | £ 151 |
| One Engine -----                            | £ 43  |
| -----                                       |       |
| Total --                                    | £ 594 |

The petitioner has evidently by oversight failed to make mention  
of the 'boiler feeding pump' which costs £ 13. This will bring  
up the total to £ 607 or Rs 9105 as stated in his application.

6. In the list of machinery proposed to be purchased by  
him, the petitioner has not included the Centrifugal which seems  
to me to be the only thing required to make up the complete sugar-  
making machinery. The Centrifugal is priced at £ 170 in the spe-  
cification. Apparently it seems to be the intention of the peti-  
tioner to continue manufacturing jaggery with the aid of the ~~ma-~~  
machinery proposed to be imported till such time as he can afford  
to purchase a Centrifugal to complete his sugar house. The ad-  
vantages of employing up to date machinery even in the manufacture  
of jaggery has been clearly set forth by me in this office No.  
14038 dated 22nd June 1908 in connection with the application  
of one Mir Aminulla Saheb of Bharapuram and it is needless to  
dwell upon the same here.

7. In this connection I may be permitted to bring to the  
notice of Government that the petitioner will have to incur a  
lot of expense in the shape of landing charges, railway freight

freight, other conveyance charges and charges incidental to setting up the machinery in the estate.

8. Further it is also a matter for consideration that Mr Krishna Iyengar has put up the necessary buildings to locate the machinery at a cost of ₹ 3000 and that the buildings have been constructed with the intention of eventually setting up a completely fitted sugar house. Considering the large sum of money already invested by him on the machinery and the buildings in his estate it can be inferred that there is no lack of earnestness on his part in the present undertaking.

9. This venture is the first of its kind in the State but Mr: Krishna Iyengar has already made a successful beginning and has acquired considerable experience in realising the advantages in the use of machinery in this direction. He is known to be an intelligent and enterprising agriculturist and with his earnestness and knowledge of the details it appears to me that the venture, if encouraged, is bound to be a success.

10. It may also be pointed out here that the safe-guards secured by the petitioner for the proper working of the plant are so far satisfactory. The evaporating plant proposed to be imported is so adjusted as to suit the capacity of the mill now set up in the estate. The efficient and continuous working of the plant is guaranteed and the firm has ~~has~~ agreed to replace free of charge such parts of the machinery as are found defective during the first working season and also those that are found broken in transit.

11. Mr: Krishna Iyengar now holds ₹ 2000 with him, being the loan previously granted, and prays for a further loan of ₹ 7000 free of interest in order to enable him to utilize both the amounts towards the purchase of the evaporating plant.

Under the above circumstances I strongly recommend that the Government may be pleased to order the grant of a further loan of ₹ 7000/- free of interest as a special case to the petitioner, ~~and~~ the machinery already set up on his estate and the evaporating plant proposed to be set up by him being taken as security for the loan. The petitioner may be permitted to re-

repay the loan in ten annual instalments, the first instalment to begin on the expiry of the year after the payment of the loan. The Deputy Commissioner may be instructed to take the necessary Mutchalikas at the time the money is advanced.

I have the honor to be,

Sir,

Your most obedient servant,

For Revenue Commissioner.

M.A.N.

over

SUBJECT

Iyengar to utilize the loan  
of Rs 2000 granted to him under  
Go. no. R 954-7- Apr 28.05-5  
& 20.7.06, for the purchase  
of an evaporating plant. As  
the cost of the machinery  
proposed to be purchased by the  
applicant for the loan is now  
ascertained to be Rs 9000 + odd  
the Rev. Commr recommends  
that the applicant may  
be granted a further loan  
of Rs 7,000 to enable him  
to purchase the machinery.

The maximum amount  
of ~~the~~ loan which may be  
granted for the erection of  
sugarcane mills is only Rs 5000  
(Vide Notifs nos R 2557 & 10.12-01  
and R 4605- Apr 28.05-2  
& 19.10.05). There is also  
no provision in the rules  
for the grant of the loan  
on the security of <sup>the</sup> machinery  
merely if proper landed

GENERAL AND REVENUE  
SECRETARIAT.

(Continuation Sheet draft form.)

Security is furnished  
as required by para X  
of the rules of 1901. Govt  
have no objection to  
the grant to M<sup>r</sup>. N.  
Krishna Dyugary a  
further loan of Rs 3000  
on his executing the  
necessary documents.

The Rev. Commr is requested  
to see that proper security  
is furnished. The loan  
will be repayable in  
ten annual instal-  
ments, the first instal-  
ment to begin on the  
expiry of one year after  
the payment of the loan.  
Interest will be charged  
at 5 per cent per annum  
being paid from year to  
year as it accrues due.
